Welcome to World Company Sports Games 2026

It is based on a solid application and proven experience that we have entrusted the organization of the 6th edition of the World Company Sport Games (WCSG), to be held from June 10th to 14th, 2026, to the city of Frederikshavn and the Danish Federation for Company Sport.

After the World Games in Catania in 2024, athletes will once again have the pleasure of gathering on the northernmost palm-lined beach in Europe for this must-attend international event. With 29 disciplines on the program and additional activities focused on leisure and discovery, this edition will celebrate diversity, cohesion, and performance—core values that unite sport and the world of work.

Karsten Thomsen, Mayor of Frederikshavn, Peder Bisgaard, President of the Danish Federation for Company Sport, Per Malmberg, CEO of Arena Nord Frederikshavn, and their teams are committed to welcoming us in high-quality facilities, ready to take on new sporting challenges in a spirit of friendliness and sharing.

We look forward to seeing many of you in Frederikshavn to experience this incredible adventure together, in the heart of a warm and welcoming city between land and sea.

See you soon in Denmark!

Didier Besseyre

President of the World Federation for Company Sport

Sports fever in Frederikshavn

It is with great pleasure, joy, and pride that we welcome the World Company Sport Games 2026 to Frederikshavn.

We're ready. We've been working tirelessly, and we can't wait to officially open the 2026 World Company Sport Games.

We believe our sports facilities and breathtaking surroundings make the perfect setting for this event. Athletes can look forward to beach volleyball on Scandinavia's only palm beach, while our beautiful, rolling forests provide the perfect terrain for both running and mountain biking. And as a coastal city, we can boast more water than land. Most importantly, we are thrilled to welcome you to Arena Nord, the region's premier sports centre, which recently hosted the Women's World Handball Championship.

Sport is for everyone—it unites us, breaks down barriers, and brings people together. Its true magic lies in the inspiring spirit that emerges when we meet in friendly competition, pushing each other to new heights. After all, the essence of sport is not just participation but the thrill of the challenge and the drive to win. Who wouldn't want to join the Winners Circle?

Here in Frederikshavn, we'll admit it—we're not the best losers. We don't like it. But we also come from a pragmatic part of the country. Although our municipality is known as the "Land of Light," experience has taught us that not every day is sunny in the world of sports. The forecast is always mixed. Still, we take the bitter with the sweet and remain unwavering optimists. When the tide turns in our favour, we'll be ready to seize our moment of glory again.

We have created this event in the spirit of optimism. While we pursue the sweetness of victory, we also embrace all the other incredible aspects of competing, socialising, and coming together. The World Company Sport Games offer the perfect opportunity to forge friendships, build contacts, and connect across borders and industries. When we shed our uniforms or work clothes and don our sports gear, we all become equals – and that's when the smiles begin to spread.

Here in our welcoming and naturally beautiful home region of Frederikshavn Municipality, it is a true honour to take up the torch of corporate sport and extend a warm welcome to all you wonderful participants. We've been preparing for this moment for a long time, and now we're brimming with excitement and anticipation. It's going to be an unforgettable experience.

Thank you so much for visiting us. We hope you'll make some great memories and come back for more.

Sporting greetings
Per Malmberg
CEO, Arena Nord

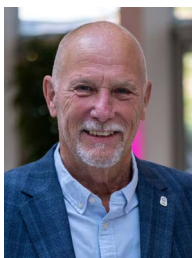

Bringing the World *Together*

The Danish Federation for Company Sport is both delighted and grateful for the opportunity given to us by the World Federation for Company Sport to help provide the setting for the 6th edition of the World Company Sport Games. This will be achieved in close collaboration with Frederikshavn Municipality, Arena Nord, Sport Event Denmark, and the company sports associations in Hjørring, Sæby, and Frederikshavn.

At the Danish Federation for Company Sport, we are delighted to offer colleagues from around the world an insight into how we approach company sports in Denmark – and in Scandinavia as a whole. We are also thrilled to welcome our Norwegian and Swedish company sports colleagues to a sports celebration on Denmark's northernmost tip.

Danes have a proud tradition of strengthening social bonds between colleagues through sport – both on and off the pitch. We forge relationships and friendships in the 'third half.' When the day's activities are over and the sun sets, we ramp up the socialising even more and get together over dinner. We do our utmost to provide the best and most welcoming setting, where participants from all disciplines can come together in the evenings to share the memorable, fun, and unique moments of the day.

It is with great pleasure that I – on behalf of Danish Federation for Company Sport – invite participants and workplaces from all over the world to Denmark and the World Company Sport Games 2026. Our passion for sport and love of movement is what brings us together up here at the top of Denmark, where we'll nurture our team spirit and strengthen our communities.

Peder Bisgaard

Chairman, Danish Federation for Company Sport

Welcome to

The City of Frederikshavn Always in Top Form

Location

World's most northerly palm beach.
There are now 100 palm trees in the
white sand of Denmark's most exotic
beach.

Known to most as a traffic hub, but Frederikshavn has a lot more to offer. An unusually high number of shops and restaurants, and even the only palm beach in Denmark!

Frederikshavn has its own very special atmosphere thanks to its maritime history, idyllic setting, and the ferries plying back and forth to Sweden, Norway and Læsø. The vast number of visitors to the town (around five million a year) have nurtured a shopping mecca, including one of the country's longest pedestrian streets. Nature also plays a role, with a wealth of activities and things to do on land and sea.

World's most northerly palm beach

It all started in 2004 with 30 palm trees. There are now 100 in the white sand of Denmark's most exotic beach. On a summer's day, when the sun beams down from a cloudless sky, you could almost think you were in the Caribbean. But this is the Kattegat and Denmark at their very best.

Frederikshavn presents a delightful prospect of fun for the entire family, boasting an extraordinary vantage point from the unique platform at Pikkerbakken's southern end. From here, visitors can enjoy a spectacular view over Frederikshavn and the Kattegat Sea. The locality is rich in attractions including the Coastal Museum, Bunker Museum, military installations, as well as a deer park and botanical gardens. As one approaches the Port of Frederikshavn, one of Denmark's busiest commercial harbors, the historic Krudttårnet (Gunpowder Tower) greets them, serving as a nod to the era when Frederikshavn was known as Fladstrand. This historical monument also highlights the town's annual celebration of its rich history through the vibrant and colorful Tordenskjold Days.

We encourage you to explore everything Frederikshavn has to offer during your stay.

Enjoy Northern Jutland

Destination Nord is the official tourism organization for the municipalities in north of Denmark, Frederikshavn, Brønderslev, Læsø, and Aalborg. We are responsible for destination development, visitor services, and marketing across this region in Northern Denmark.

The four municipalities have joined forces to establish a strategic vision aimed at making the destination one of the most attractive and leading tourism regions in Denmark.

Through a coordinated effort, the municipalities aim to create a strong connection from Aalborg in the south to Skagen in the north, integrating the unique island and east coast experiences along the way. This collaboration strengthens and supports shared tourism strategies within coastal, nature, cruise, urban, and business tourism. This is achieved through cross-sector partnerships between Destination Nord, national tourism organizations, local commercial and non-commercial stakeholders, and the municipalities themselves.

The goal of Destination Nord is to ensure a strong and competitive destination that attracts international visitors while driving economic growth, employment, sustainability and exceptional visitor experiences throughout Northern Jutland.

By working together, Destination Nord strengthens Northern Jutland's position in the global tourism market, ensuring that the region continues to thrive as a premier travel destination.

Destination Nord's main role in connection with WCSG 2026 is to be responsible for accommodations, ensuring that participants have access to suitable lodging at affordable prices through close collaboration with local hotels.

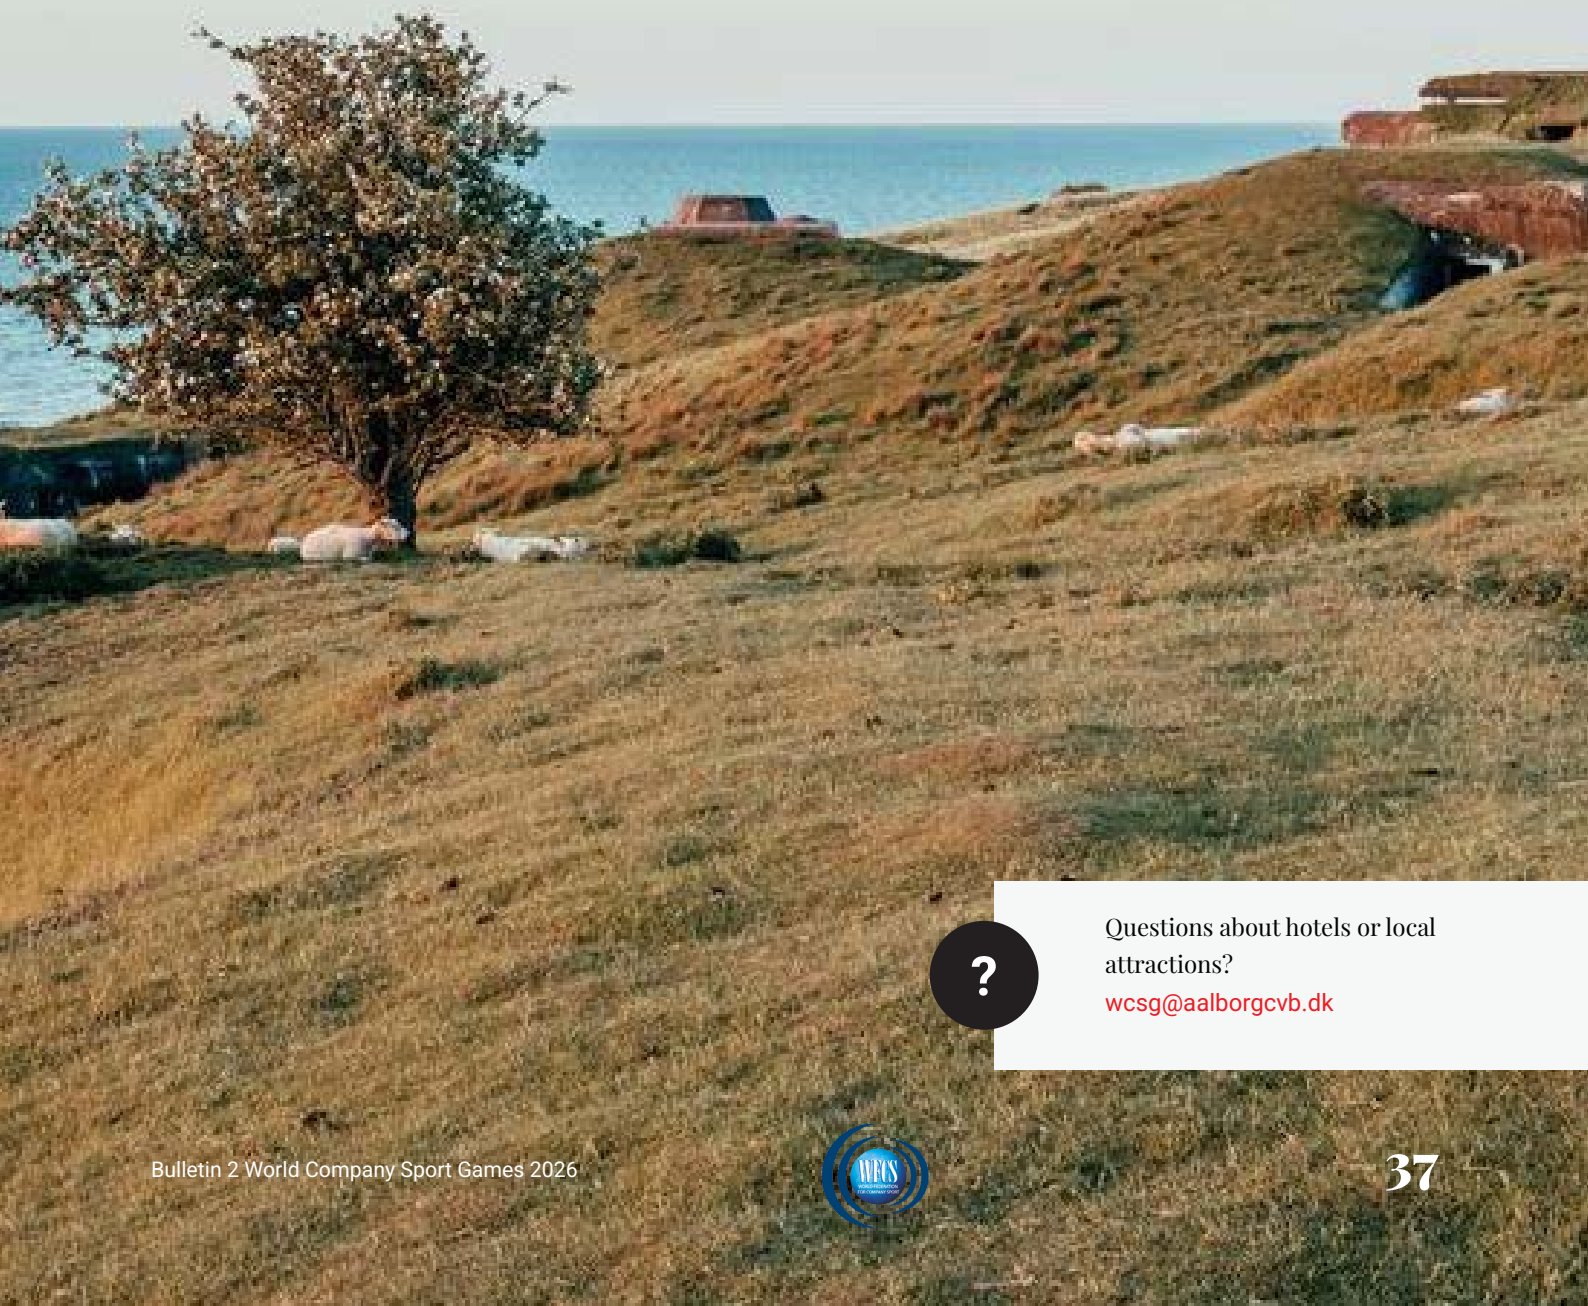

Before the World Company Sport Games 2026, we will ensure that participants have access to booking accommodations and receive information about the various lodging options available in the area.

During the World Company Sport Games 2026 in Frederikshavn, Destination Nord will be present on-site to ensure that participants have access to the best accommodation options in Frederikshavn and the surrounding areas. We will ensure they have easy access to support if any questions or needs arise. Our goal is to make their stay smooth and enjoyable.
